

Crs Report for Congress: Foreign Investment in the United States: Major Federal Statutory Restrictions

Foreign investment in the United States is a matter of congressional concern. It is believed by some that the United States has an unusually liberal policy which allows foreigners to invest in virtually all American businesses and real estate and that these foreign investments undermine the American economy by making it vulnerable to foreign influence and domination. These critics argue that there is even foreign domination of some key defense-related industries and that the ability of the country to protect itself in a time of national emergency could greatly suffer. These critics further argue that extensive foreign investment in this country drives up prices which Americans have to pay for investments and, even more importantly, for houses and farmland in areas where there is a significant amount of foreign ownership. This item ships from La Vergne, TN. Paperback.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
