KATE GARDNER, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Gratitude is one of the most important feelings which work in line with the law of attraction. If you learn how to use more gratitude for the things that you already have in your life then you will notice more good things come your way. Gratitude operates through a universal law that governs your whole life. If we go back through time and notice the sayings of all the great people who lived. For example; Albert Einstein, Wallace Wattles, Beethoven and Napoleon Hill and many, many more have said that gratitude brings you much more. Albert Einstein, who was the greatest scientist who ever lived spoke of giving thanks 100 times each day in order to receive everything that the heart desires. By learning more about gratitude and vibration we can then learn to focus on things that are truly important and learn to appreciate the value of them within our reality. I am so happy to bring forward this subject in The Missing Piece book series because I feel it is so important for you to read real people s stories and learn first-hand of other people s experiences in their lives, so they can tell you how gratitude as affected their lives, and how it has helped them become better people along the journey.
